NOTICE TO CONTRACTORS

Kamloops Electoral District

Bridge Project 752—Valleyview Drive Overpass, Trans-Canada Highway, Contract 2: Bolster Work.

SEALED TENDERS, marked "Tender for Bridge Project 752—Valleyview Drive Overpass, Contract 2," will be received by the Department of Highways at the Parliament Buildings, Victoria, B.C., up to 2 p.m. on Wednesday the 7th day of May 1975, and opened in public at that time and date. Tenders must be delivered only to Room 237, Douglas Building, Victoria, which is open from 8.30 a.m. to 12 noon and 1 p.m. to 4.30 p.m., Monday to Friday, except holidays.

The contract consists of the construction of four new piers and 20 cast-in-place columns and the supply and erection of 20 steel beams supporting the existing deck.

Plans, specifications, and conditions of tender may be obtained from the Provincial Government Plan Viewing Room, 108, 501 West 12th Avenue, Vancouver, B.C. V5Z 1M4 (telephone 879-7531), or from the undersigned for the sum of \$10 (cheque or money order made payable to the Minister of Finance), which is not refundable.

Construction of this contract shall conform to the requirements of the applicable sections of the Department of Highways "General Specifications for Highway Construction." If the bidder does not already have a copy of these specifications, one may be obtained from the Provincial Government Plan Viewing Room, Vancouver, B.C. V5Z 1M4, or from the undersigned for the sum of \$10 (cheque or money order made payable to the Minister of Finance), which is not refundable. All copies purchased are registered and amendments are forwarded when issued.

Each tender must be accompanied by a bid bond or a certified cheque in accordance with clause (a) or clause (b) below:

(a) Where the total tender price exceeds \$100,000 a surety bid bond in an amount equal to 10 per cent of the tender price must accompany each tender. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. The surety bid bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so.

(b) Where the total tender price is less than \$100,000 a surety bid bond or a certified cheque in an amount equal to 10 per cent of the tender price must accompany each tender. A performance bond and a labour and material payment bond, each in the amount of 50 per cent of the tendered sum, in a form acceptable to the Minister of Finance, must then be provided by the successful bidder upon receipt of notice of acceptance of tender. If a bid bond is supplied this bond shall be forfeited if the tenderer declines to enter into a contract if called upon to do so. In the event that the successful bidder supports his tender with a certified cheque, but fails to produce the required performance bond and labour and

material payment bond within a period of 14 days from the date of issuance of notice that his tender is accepted, the Minister of Highways shall have the right to forfeit the tender deposit in its full amount or to the extent of the difference in cost between the bidder's tender and the accepted tender, whichever is the lesser.

Tenders must be made out on the forms supplied and enclosed in the envelope furnished.

The tender submitted is irrevocable for 60 days and may not be altered, amended, or withdrawn for any cause without the written permission of the Minister.

Tenderers are advised that all bidders will be required to satisfy the Minister of Highways, in writing, that they have the necessary qualifications to successfully perform the work. It is preferred that tenderers submit with their tenders a list stating the type, capacity, and present location (so that inspection can be made if necessary) of the equipment in their possession or at their disposal which is immediately available for the carrying-out of the work within the time limit specified without in any way curtailing or delaying any Departmental project that may be under contract at this date.

No tender will be accepted or considered which contains an escalator clause or any other qualifying conditions, and the lowest or any tender will not necessarily be accepted.

It is preferred that tenderers submit with their tenders a schedule of proposed construction operations showing estimated monthly progress for each phase of the construction work.

APPLICATION FOR PERMIT UNDER POLLUTION CONTROL ACT, 1967
(Effluent)

Preamble—The permit presently held by the City of Cranbrook expires December 31, 1976. By that time, the present facility must be upgraded as well as appropriate measures taken to cease disposing of treated wastewater directly to Joseph Creek as is done at present.

In order to study the various alternatives available to meet the requirements of the Pollution Control Branch, the City of Cranbrook formed the Sewage Effluent Disposal Committee in 1973. Its members include personnel from Governmental Agencies, City Council, and the City Administration concerned with the treatment and disposal of municipal wastewater, including its effect on the region. This committee, after preliminary investigations, recommended the appointment of EPEC Consulting Western to conduct a

feasibility study to determine the best method of treating and disposing of Cranbrook wastewater within the limits set down in the proposed Pollution Control Branch guidelines.

Upon completion, the feasibility study indicated that two methods of wastewater treatment and disposal were feasible:

- (1) Upgrading treatment facilities with direct disposal to the St. Mary River.
- (2) Upgrading treatment facilities with final disposal to land by spray irrigation.

The committee concurred with the study recommendation of the second method of disposal. Subsequently, City Council, by resolution, adopted the recommendation and are proceeding with the following licence application:

THIS APPLICATION is to be filed with the Director, Pollution Control Branch, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13 (2) of the *Pollution Control Act, 1967* may, within 30 days of the date of application, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or, where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

The Corporation of the City of Cranbrook, of 40—10th Avenue South, Cranbrook, B.C., hereby applies to the Director for a permit to discharge effluent from an aerated sewage lagoon located northwest of the City of Cranbrook into ground, and gives notice of application to all persons affected.

The land upon which the treatment works are located is Lot B, Plan 1566, District Lot 27, Kootenay District.

The discharge shall be by way of spray irrigation upon lands east of Highways 3 and 93 in the area of the Fort Steele junction as shown on the plan; land legal descriptions appended.

The quantity of effluent to be discharged is as follows: Average annual daily discharge (based on operating period), 3,000,000 imperial gallons (based on 27,000 population). Maximum daily discharge, 6,000,000 imperial gallons (to treatment works).

The operating period during which the effluent will be discharged is 140 days net during May 1 to September 30 annually.

The characteristics of the effluent discharged shall be equivalent to or better than suspended solids, 100, total solids, 500; BOD, 60; pH, 7.4-8.4; temperature, 33-61°F.

The type of treatment to be applied to the effluent before discharge is aerated lagoons, with final polishing cell and storage lagoon prior to land application by sprinklers.

I. F. F. Bertoia, Secretary-Treasurer, hereby certify that a copy of this application has been received by the Regional District of East Kootenay.

This application, dated on the 14th day of March 1975, was posted on the ground in accordance with the Pollution Control Regulations.
